Special committee on Averages and Rank, reported. Report adopted, as follows:

Regulations concerning Averages and Rank.

1. Marks on a scale of 100, showing the proficiency of Each student, shall be reported at the End of Each terme by the officer having charge of any Exercise during that terme, and shall be recorded. The mark shall include the result of an Examination to be held at the End of the terme, with marks obtained during the course of the terme, combined as the officer may deem best.

2. A terme average shall be made ~~from~~ in the following manner, from the marks reported by officers: In Each subject ~~the~~ taught by Text-book, Lecture, practice in Laboratory or field, or Drill, the mark reported shall by multiplied by the number of Exercises in such subject per week, and the product will be called the credit for such subject; The quotient found by dividing the sum of the credits by the sum of the multipliers shall be the average mark in scholarship for the terme.

Rhetorical Exercises shall be credited with one Exercise per week

3 The mark for the year shall be the average of the marks for the three terms of the year. The mark for the course shall be the average of the marks for the four years of the course.

4. The mark of a student who is absent not more than one half of any term shall be based upon the marks for the part in which he was present, and upon his examination

5. Students absent from examination for satisfactory cause shall make up the examination on their return to college. Students absent without good reason, shall be marked zero for the examination, and shall be subject to such farther penalties as regulations may provide, or as the faculty may impose.

6 A student absent more than half of any term shall be required to make up the work of the lost time in such way as may be arranged with the officers in charge of the several departments. The marks of proficiency of such students shall be reported and entered upon the record in their proper places, and when the blanks for a term are filled, it shall be averaged in accordance with the provisions of Section 2.

7. Students admitted to advanced standing will be considered as members of College absent during the terms beyond which they were advanced, for which back work must be made up, and a record obtained as provided in Section 6.

Provided that the faculty may accept proficiency in one subject in lieu of another; and provided that no back work need be made up in ~~Natural~~ Exercises or in ~~Drill~~ military Drill.

8 Special students will be marked in the several subjects which they pursue, and their marks will be recorded, but no averages will be taken. If admitted to full course back work in all deficiencies will be required, as in case of students admitted to advanced standing.

9. That member of any class who shall attain the highest average in scholarships during any term, or year, or during the Entire course, shall be awarded the first rank in said class, for said term, year, or course; the person having the next average in order shall be second in rank, and so following. Should two or more persons have the same average they shall receive the same rank, but this will not affect the rank of any whose averages may be lower.

10. In drawing up any schedule of rank, only those persons shall be considered whose records are complete for the time in consideration, and this schedule may not be disturbed by the subsequent completion of any record. A record completed after a schedule of rank has been drawn will entitle the matter to a rank of the same average, if one exists, if not, to the rank of the average next below.

It was voted that Mr Chase of the Senior class be granted leave to withdraw his petition asking that his brother be permitted to enter College next year as a Special Student in Chemistry and it was voted that the fuller question as to the expediency of the young man's receiving private instruction in Chemistry be

referred to the President and Prof Wellington. Prof. Washburn of Storrs School, Ct. having asked whether students from that institution would be received as post graduate students in this College, it was voted that no general answer could now be given but that each case must be settled by itself. Mr Osterhout petitioning that he be allowed to substitute next term 5 hours per week of work in Chemistry for other work, his petition was referred to the standing Committee on Changes and conflicts in the studies of the Course, which Committee consists of Profs Alvord, Maynard and Fernald as appointed Sept 15/86.

The committee on the program for Commencement reported as follows:

Recommended that the following method be adopted this year for selecting six Commencement speakers from the

Senior Class. The faculty shall be divided into four Committees of two members each; to each Committee shall be assigned in faculty meeting five theses -- the Senior class consisting of nineteen members, to one Committee would fall of course only four theses. Each Committee shall determine upon the three excelling of the five theses and report the result. In case of difficulty in reaching a decision a Committee shall receive the coöperation of any other Committee. From the resulting twelve selected theses six shall be selected by an essential repetition of this process: whereupon each of these six shall be referred to a separate Committee for such revision as may be expedient preparatory to presentation.
